Guerrero's Aero-Innovations, Inc.

Chief Engineer and Owner: Jose Guerrero

# GRO-2005

- **Best legal distance flown:**
  - 1 foot.
- **Bonus points:**
  - Colorful design.
- **Possible improvements:**
  - Use a lighter material for the upper wings.
  - Include at least one propeller on the design.
  - Try to increase the number of mousetraps used.

- **Prize of the materials used:**
  - Two mousetraps: \$1.99 both.
  - Front wheels: \$5.99 both.
  - Rear-wheel: \$1.30 both.
  - Seven white-plastic sticks: \$0.25 each.
- **Suggested Changes to the contest rules/specification:**
  - Have a ramp at the end of the table.

Generally speaking, I think the rules for this contest were very fair and well developed.
